Night people hanging out, looking at each other  
Waiting for something to happen  
Night people hanging out, looking at each other  
Waiting for something to happen

While the day world is sleeping  
Night people are creeping, hanging out, looking at  
each other  
When the day world stops moving  
Night people start grooving, hanging out, looking at  
each other

When the day bees stop buzzing  
Night people start coming, hanging out  
Waiting for something to happen  
Night people hanging out, looking at each other  
Waiting for something to happen

You don't get one thing without the other, we got to  
keep the world alive  
If everybody went to sleep at the same time, how'd we  
keep the world alive?  
In a word, we got the night people  
Night people hanging out, looking at each other  
Waiting for something to happen

Got to see who is with you  
Who is with me, who is with who  
We're hanging out looking at each other  
Got to see whatcha wearing, whatcha got  
Whatcha sharing, hanging out  
Waiting for something to happen

As the day world goes by  
Night people doing fine, hanging out, looking at each  
other  
When the day world starts humping  
Night people start pumping, hanging out  
Waiting for something to happen

Night people hanging out, looking at each other  
Waiting for something to happen

Night people hanging out, looking at each other  
Waiting for something to happen

Night people grooving, hanging out  
Night people grooving, night people grooving  
Night people grooving, night people grooving  
Night people grooving
