"Your Sweet Love"

Stranger's arms reach out to me cause they know I'm
so lonely
Then my mind goes back to you your sweet love sees
me through
Your sweet love sees me through
[strings]
Stranger's eyes see through me they know I need
company
Then I stop and think of you your sweet love sees me
through
Your sweet love sees me through
[strings]
Strangers take my loneliness tell me that they
understand
Until the death I'll think of you and your sweet love sees
me through
Your sweet love sees me through
