I never had a job on Wall Street.
Never was a man of means.
There's nothing social about social security.
Never found no pork in my beans.
I always did what my mama told me.
Do so good and pay the band.
I always did what my mama told me
but I never did vote republican.
I never did vote republican.

And the stripes keep on waving
and the stars always shine
and it smells just like freedom
in this land I call mine,
in this land I call mine.

I never never started nothing.
I never never never ran.
I never fought or hurt nobody,
nobody I was bigger than.
I always did what my mama told me.
Do so good and pay that band.
I always did what my mama told me
but I never did vote republican.
I never did vote republican.

And the stripes keep on waving
and the stars always shine
and it smells just like freedom
in this land I call mine,
in this land I call mine.
