Works a 12 hour day from sun up til sun down
He's doing what he can to make the wheels go round
In a she'd down the track he knows how to bend his
back

He's the soul of the earth he's got a heart of gold

CHORUS

He's a member of the out back club

He don't back down and he don't give up

He's living in the land he loves

Born and raised he's a member of the outback club

She rides the boundry fences with the blokes

She's a match for any man alive when she works the
mob

Before the job is done there's another just begun

A kinda woman any man'd be proud of

CHORUS 2

She's a member of the out back club

She don't back down and she don't give up

She's living in the land she loves

Born and raised she's a member of the outback club

HO!!!

Works the field maybe just to bringing out the crop

There out there working their fingers to the bone

Might be jerking the stock or maybe working the mob

They got one thing in common, the country heart and
soul

CHORUS 3

Their members of the out back club

They don't back down and they don't give up

Their all living in the land they love

Born and raised their members of the outback club

CHORUS 4

We're all members of the out back club

We don't back down and we don't give up

We're all living in the land we love

Born and raised we're all members of the outback club

We're all members of the out back club

We don't back down and we don't give up

We're all living in the land we love

Born and raised we're all members of the outback club

Yeah we're born and raised we're all members of the

outback club
