I ain't feelin' how girls sometimes be talkin' about  
What they don't do, it's crazy  
'Cause I got needs just like a fella and you know it's  
true  
So come and give it to me, baby

I need to have his touch and feel his hand rubs my hair  
Rocks my body all night  
See I want it like you want it, baby boy, let's take it there  
I ain't never scared, it's alright

I wanna rock you boy  
I certified to climb on top it and ride it  
I'm bout to put this thing on you  
I got you boy, tonight relax yourself  
I'll be your fantasy, I'm bout to make your dreams  
come true

I wanna be your freak, baby  
Gotta keep it street, baby  
Boy, u know u need it in your life  
Welcome to the Showdown  
(Showdown)  
It's bout to go down  
(Go down)

Give it to you anyway you like  
Lemme be your freak  
(I wanna be)  
In between the sheets, baby  
Boy, u know u need it in your life

Welcome to the Showdown  
I can move it fast  
Or make it slow down  
Give it to you anyway u like

I wanna lay you down and take off  
All of your clothes  
Come let me undress you, baby  
Caress my body and kiss me from head to toe

Then whisper "You're so sexy, baby"  
Don't be afraid to touch me wherever you like  
Let your fingers do the talking, baby  
See your lips go from my neck down to the small of my  
spine  
You're 'bout to drive me all crazy

Now come get it, boy  
Been waiting for too long for you to do  
That thing, that I want you to do to me  
You know I'm wit it, boy  
You ain't gotta turn out all the lights  
'Cuz, I got something I need you to see

I wanna be your freak, baby  
Gotta keep it street, baby  
Boy, u know u need it in your life  
Welcome to the Showdown  
It's bout to go down

Give it to you anyway you like  
Lemme be your freak  
(I wanna be)  
In between the sheets, baby  
Boy, u know u need it in your life

Welcome to the Showdown  
I can move it fast  
Or make it slow down  
Give it to you anyway u like

You just need to put it on me, what you wanna do  
What I got is good and I will give it all to you  
And I know what you got is too good to be true  
So let me be your freak baby

You and me in every room, I swear that I don't play  
Gotta give it to me and I need it right away  
Ain't no need for talking ain't nothin' left to say  
I wanna be your freak baby
