I remember what you said when you said it to me last
night
We was talkin' and you reassured me everything's fine
When I woke up this morning to get some lovin' from
you
I turned to one side to my surprise, I wasn't layin' next
to you

Why did you get close to me thought it was supposed
to be
Me and you, you and me so complete
Why you handelin' me this way, what was it you was
talkin' yesterday
Yesterday, I could say, I seemed to be, so complete, so
complete

Went away you said nothing
You didn't no kiss no lovin'
You didn't it's a shame but it brings about the weak in
me
You didn't spend a lot of time with me
You didn't share things I wanna see
You didn't when ever you're around me it's so complete

So I waited and I waited 'cause I knew that you would
call
Hour 1, hour 2, hour 3, hours not at all
If I'm dreamin' wake me up 'cause I just about had
enough, I had enough
I cannot see how you would ever let this happen to me

I still believe that it was supposed to be me you, you
and me so complete
If you're sayin' that you need to leave
Then be a man about it step to me step to me, tell me
please
That without me it's so complete, so complete

Went away you said nothing
You didn't no kiss no lovin'
You didn't it's a shame but it brings about the weak in
me

You didn't spend a lot of time with me
You didn't share things I wanna see
You didn't when ever you're around me it's so complete

Won't you tell me right now what you want from me,
what you want from me
'Cause it's been too long that you've held it in baby,
held it in
Thought you were the one but you just played me, you
know you played me
Now I feel that I'm so incomplete, yeah hoo hoo yeah
yeah

Went away you said nothing
You didn't no kiss no lovin'
You didn't it's a shame but it brings about the weak in
me
You didn't spend a lot of time with me
You didn't share things I wanna see
You didn't when ever you're around me it's so complete

Please, give me the response I need
I want you to complete me, ohh baby
Please, give me all the lovin' I need
Promise you'll never leave me whoa baby

Baby what more can I say
'Cause I want you to tell me
What it is you wanna do
'Cause I wanna be with you
