She feels I pinched her dreams
She popped into my brain
I got so drunk on all the love
That I just can't explain
She got me hypnotised
Now I can't believe I die
With just one kiss up on the lips
She ? saved my life
I think, I think I really love her

Chorus :

Her name is peaches
She leaves me speechless
She got me dreaming in another world within my
reaches
See, I do really love her
And if you see her
? forever
Her name is peaches
She leaves me speechless
She got me dreaming in another world within my
reaches
I see I see I really love her

Till the day she comes
I guess I'll be alone
Yeah
Never seen the sun
Till she calls me?

Seeing everything little thing she does
Got me crying out for love
Must been sent down from above
She must have been kissed by a dove
She plays ? stage
Don't care what a nasty game
She don't really know her name
But peaches is a the one, I say
I see, I see I really love her

Chorus :

Her name is peaches
She leaves me speechless
She got me dreaming in another world within my
reaches
See, I do really love her
And if you see her
? forever
Her name is peaches
She leaves me speechless
She got me dreaming in another world within my
reaches
I see I see I really love her

Why don?t you clap,
Come on and clap!
Clap as you can
Come on and clap
Clap, clap, clap, clap,?

Till the day she comes
I guess I'll be alone
Yeah
Never seen the sun
Till she calls me?

Chorus :
Her name is peaches
She leaves me speechless
She got me dreaming in another world within my
reaches
See, I do really love her
And if you see her
? forever
Her name is peaches
She leaves me speechless
She got me dreaming in another world within my
reaches
I see I see I really love her

Her name is peaches!
