There's a way she touches me  
Gently like a summer's breeze  
It's like poetry in motion when she speaks  
By the warmness of her hands  
I can heal them once again  
I feel strong enough and free enough to love

There's something in her way  
That tells me she's the one  
This love won't change throughout the seasons  
She's more than words can say  
A lullaby in harmony is all that's really needed to  
convey  
Suffice to say, she's my everything

When the snowflakes fall at night  
It reminds me of her eyes  
I can sit amazed for hours at a time  
I've been meaning to say  
Precious words to make you stay  
So I've devoted time to open to you my heart

There's something in her way  
That tells me she's the one  
This love won't change throughout the seasons  
She's more than words can say  
A lullaby in harmony is all that's really needed to  
convey  
Suffice to say, she's my everything

She's the reason, my guiding light  
There's no expression?????  
She's the summer time and winter through spring  
She's my everything  
My everything

There's something in her way  
That tells me she's the one  
This love won't change throughout the seasons  
She's more than words can say  
A lullaby in harmony is all that's really needed to

convey  
Suffice to say, she?s my everything
