All I hear is voices in the crowd
They only whisper though they frown
People say "oh its such a shame"
Still they only look to pass the blame

If we can find a way to work things out
The only way to start is to start now

When are we gonna stand up as people
Realise that as people were all equal
We dont want no world war sequel
For the love of god think of the people

When are we gonna stand up as people
Realise that as people were all equal
We dont want no world war sequel
For the love of god think of the people

Children always learn by what they see
So we gotta practise what we preach
Don't you know its the game of life
We refuse when we choose to fight

If we can find a way to work things out
The only way to start is it start now

When are we gonna stand up as people
Realise that as people were all equal
We don't want no world war sequel
For the love of the god think of the people.

When are we gonna stand up as people
Realise that as people were all equal
We dont want no world war sequel
For the love of the god think of the people.

I pray before i sleep at night
That i'll wake to find a clear blue sky

When are we gonna stand up as people
Realise that as people were all equal

We dont want no world war sequel
For the love of the god think of the people.

When are we gonna stand up as people
Realise that as people were all equal
We dont want no world war sequel
For the love of the god think of the people.
