Stalking from an angel with a scripture
Bleeding with a tear upon a picture
I'm lost in valley
I can hear a cry my oh my oh
Cupid was an evil motherfucker
Shot her twice but still wouldn't love her
She gave more than any other to her own regrets

Move from side to side
Clap your hands just make it right
Cause we ain't gotta long

Oo ahh
I hope you get what you deserve cause
You are beautiful
You may never get what you deserve
But your still beautiful
Cause you're spiritual, umm spiritual
Yeah it's spiritual, spiritual, spiritual

One pillar on her tongue of her creation
One needle in the arm innovation
Party time is a special occasion
She danced to find love
Met jack he was black such a good friend
Kissed her once, and she thought it'd never end
His eyes they were crying
It was instant so she married him

Move from side to side
Clap your hands just make it right
Cause we ain't gotta long

Oo ahh
I hope you get what you deserve cause
You are beautiful
You may never get what you deserve
But your still beautiful
Cause you're spiritual
Oo ahh
I hope you get what you deserve cause

You are beautiful
You may never get what you deserve
But your still beautiful

Hope you get what you deserve
Cause you're beautiful
You may never get what you deserve
But you're still beautiful
(Cause this is)
You're beautiful
You may never get what you deserve
Cause you're spiritual, umm spiritual
Yeah it's spiritual, spiritual, spiritual

Oo ahh
I hope you get what you deserve cause
You are beautiful
You may never get what you deserve
But your still beautiful
Cause you're spiritual, you're spiritual
Yeah it's spiritual, spiritual
Oo ahh
I hope you get what you deserve cause
You are beautiful
You may never get what you deserve
But your still beautiful
Cause you're spiritual, you're spiritual
Yeah it's spiritual, spiritual

Yeah, spiritual, cause it's spiritual
Yeah it's spiritual
