So many words to describe what I'm thinking  
So many ways to say ?I care?  
About to sing that I'm lost that I'm sinking  
But I was certain to meet you there

'cause noticed  
you love to smile  
you smile through my heart  
I know this  
I love your smile  
Keep smiling in all your life

God must have spent a little time on you, baby

God must have heard a moment of truth  
I like to think that if God was a lady  
She'd made this world in the image of you

'cause I know this  
you love to smile  
you smile through my heart  
I know this  
I love your smile  
Keep smiling in all your life
