There is no reason to be far apart  
We should be two sides of one beating heart  
So don't be scared  
To let me love you, yeah

We're standing on the edge of something else  
Just count to ten and let go of yourself  
Somehow we'll get by, we're sky high  
So baby won't you?

Jump  
Take that leap of faith  
Take that leap with me  
We can make it if you just believe

Girl, you'll never feel more alive than  
When you and I are skydivin'  
Jump, oh, oh, oh, oh  
Oh, oh, oh yeah, oh yeah

We know that life was never meant to last  
So who cares if we're going way too fast  
Let's make the best of  
What life brings us

There's no such thing as reachin' up too high  
Why can't we build our castles in the sky?  
Run from the rooftops, we won't stop  
So, baby come on

Jump  
Take that leap of faith  
Take that leap with me  
We can make it if you just believe

Girl, you'll never feel more alive than  
When you and I are skydivin'  
Jump

Even if we fall  
Even if we break  
Tell me it's not worth the chance you take

To know that for a while we were flyin'

You and I were skydivin'  
Jump, oh, oh, oh, oh  
Oh, oh, oh yeah  
Baby yeah

It's a cold world, full of cold places  
Full of people, wearin' two faces  
You're a sure sign of what could be  
I can go anywhere if you're with me

Jump  
Take that leap of faith  
Take that leap with me  
We can make it if you just believe

Girl, you'll never feel more alive than  
When you and I are skydiving  
Jump

Even if we fall  
Even if we break  
Tell me it's not worth the chance you take  
To know that for a while we were flyin'

You and I are skydiving  
Jump, oh, oh, oh, oh  
Oh, oh, oh yeah  
C'mon, yeah, yeah

Baby  
Jump, oh, oh  
C'mon just jump  
Oh, oh

Yes, I'd jump for you  
Yes, I'd jump for you
