ENGLISH TRANSLATION**

I think i lost my mind at that time
how could i left you
i only loves you i'm really sorry
i could only cry

I think i lost my mind at that time
how could i left you
i really miss it. i miss you
please forgive me~ i think i lost my mind

i know that it's too late now
even i'm sad it's all useless
even if the wind blows and my heart is lonely
i can't see you anymore, oh~

oh baby don't leave me
oh baby you're the only one for me

please come back. please hug me tightly
i can't bear it without you

I think i lost my mind at that time
how could i left you
i only loves you i'm really sorry
i could only cry

I think i lost my mind at that time

how could i left you
i really miss it. i miss you
please forgive me~ i think i lost my mind

i couldn't say the word 'i love you' (because i'm sorry)
i also couldn't say the word 'thanks' (because you
might leave)
come back to me my girl (my girl)
i can't sleep today because of you

oh baby don't leave me
oh baby you're the only one for me

please come back. please hug me tightly
i can't bear it without you

I think i lost my mind at that time
how could i left you
i only loves you i'm really sorry
i could only cry

I think i lost my mind at that time
how could i left you
i really miss it. i miss you
please forgive me~ i think i lost my mind

i wanna hug you slowly, i wanna kiss you slowly
i wanna fall asleep in your arms yeah yeah yeah
