Betcha never, never ever  
Betcha never, never ever

Don't tell me that you don't like  
Anything about me  
I've seen it in your eyes that look  
You think that I don't notice?  
Don't hide what you feel inside baby  
I can feel the same  
Whatcha do is up to you  
So maybe you should try again  
Or maybe you just fade away

Betcha never, betcha never  
Betcha never thought we'd get this far  
Betcha never, never ever  
Betcha never you'd touch my heart  
Betcha never betcha never  
Betcha never thought I'd surrender  
Betcha never thought you'd ever get with me  
I betcha never thought about it

Betcha never, never ever  
No, no, no  
Betcha never thought about it

Don't you be afraid to try  
'Cause you don't even know me  
Why catch you in between the lines?  
You know how it should be  
Don't hide what you feel inside  
Maybe I can feel the same  
Whatcha do, it's up to you  
So maybe you try again  
Or maybe you just fade away

Betcha never, betcha never  
Betcha never thought we'd get this far

Betcha never, never ever  
Betcha never you'd touch my heart  
Betcha never betcha never

Betcha never thought I'd surrender  
Betcha never thought you'd ever get with me  
I betcha never thought about it

Betcha never, ever never  
I betcha never, betcha never thought about it  
Betcha never, ever never  
I betcha never, betcha never thought about it

Maybe you should try again  
Or just fade away

Betcha never, betcha never  
Betcha never thought we'd get this far  
Betcha never, never ever  
Betcha never you'd touch my heart  
Betcha never betcha never  
Betcha never thought I'd surrender  
Betcha never thought you'd ever get with me  
I betcha never thought about it

Betcha never, betcha never  
Betcha never thought we'd get this far  
Betcha never, never ever  
Betcha never you'd touch my heart  
Betcha never betcha never  
Betcha never thought I'd surrender  
Betcha never thought you'd ever get with me  
I betcha never thought about it
