Teacher says my head's not right  
One day I'm gonna snap  
And pull a Counter Strike  
Preacher says I'll go to Helsing  
For eternity cuz I tried Halo 3

Jack Thompson picks a legal fight  
They're bringing me to court  
Go get me Phoenix Wright (Objection!)  
Meanwhile ratings drop  
Someone go call the cops  
I hear a man's been shot

We're playing rockstar games  
They say we're all to blame  
We're playing rockstar games  
Now the whole wide world  
Will never be the same  
We're playing rockstar games  
We're playing through the pain  
We're rockin' rockstar games  
Watch us go up in smoke  
As we go down in flames

Say I live my life plugged in  
I don't know what's for real  
Is this all just The Sims  
TV music video  
Got violence sex and drugs  
But can't say Mario (It's me!)

Politicians raise your voice  
Protect the children  
Score some easy bonus points  
Another mideast bomb  
Another teenage mom  
Don't turn your console on

We're playing rockstar games  
They say we're all to blame  
We're playing rockstar games

Now the whole wide world  
Will never be the same  
We're playing rockstar games  
We're playing through the pain  
We're rockin' rockstar games  
Watch us go up in smoke  
As we go down in flames

We're playing rockstar games  
They say we're all to blame  
We're playing rockstar games  
Now the whole wide world  
Will never be the same  
We're playing rockstar games  
We're playing through the pain  
We're rockin' rockstar games  
Watch us go up in smoke  
As we go down in flames
