I am the breath behind your neck
I am the devil on your back
a little demon in your mind
I am the harvester of hate
a twilight entity of wraith
I always sneak up from behind
the dark anxiety of sin
is always growing deep within
I am the source, its pounding heart
I am the king of suicide
all that you've lost and tried to hide
I am the master of the art

I'm evil
seducing, misleading
disaffected, deceiving
I control your emotions
I set free your mindless - lifes
the harvester of hate
I am the figment of your brain
my mission is to cause you pain
I love to do the things you hate
take a leap you can not flee
deliver me your misery
I will vanish, you'll be free
I'm evil
the harvester of hate
