moon - dress the lake in silver  
give the night your secret light  
and shine on me forever  
dream - let me dream of wonder  
don't wake me up until it's late  
when the night and I'm together  
come with me  
stay with me  
come to me  
walk with me  
in moonlit night  
my shadow become free  
rise - from your daily slumber  
leave your dwells and hideaways  
imbibe the night of silver  
you're the mist of air.  
lurkin everywhere  
elven kings and elven queens

shapeless until nightfall  
come with me  
stay with me  
come to me  
walk with me  
in moonlit night  
our shadows become free  
I - I'm the gnome of darkness  
dead at dawn. at dusk reborn  
to wake up magic beings  
soon - morning tears of sunlight  
fills the night like moisty air  
and we will fade away again  
come with me  
stay with me  
come to me  
walk with me  
in moonlit night  
our shadows become free
