[words & music: MÃ¥rdstam]

When you turn your back you havnÃ´t got a chance  
When you turn your back there is no romance  
Nothing you can do - right between the eyes  
Nothing you can do - everything is lies

HavnÃ´t got the time to waste in the lie  
You will die in pain in NovemberÃ´s rain  
Liars betray

Master, master, master of disaster  
The road is calling canÃ´t you hear  
Faster, faster, faster to disaster  
IÃ´m shifting to a higher gear

What is nothing else the night when IÃ´m you  
What is nothing else when every lie is true  
Nothing you can say - prepare to die now  
Nothing you can say - telling you goodbye

HavnÃ´t got the time to waste in the lie  
You will die in pain in NovemberÃ´s rain  
Liars betray

Master, master, master of disaster  
The road is calling canÃ´t you hear  
Faster, faster, faster to disaster  
IÃ´m shifting to a higher gear

So I donÃ´t trust in no one but myself
