Put some time on the line gotta face reality  
I found myself when I was sinking  
Make a way for the feelings that were promised  
yesterday  
And pack My baggage for a mental vacation

And I say...  
Get lost, get lonely that's where you'll find the answers  
You left them there  
Take flight, close your eyes whisper through blue skies  
and breath in  
Your almost there  
Release yourself...

I remember how it felt when I thought I lost everything

And all my dreams echoed behind me  
She was light, like a star, and I looked deep into her  
timeless eyes  
Ran into her one night when I was loaded

And she said...  
Get lost, get lonely that's where you'll find the answers  
You left them there  
Take flight, close your eyes whisper through blue skies  
and breath in  
Your almost there  
Release yourself...
