Friday night that's where I'm going and I'm thinking  
California's where I'm dreaming  
Take me back I know just how to stay  
And all the way we forfeit yesterday  
We've got a brilliant plan of escape

We don't care  
Don't try to tell us when the timing's right  
We've got our guns and we know how to use them  
We don't care  
Listen up you might just find tonight  
We've got a voice and we're not gonna lose it

Day to day that's how I live it but I'm breathing  
In the lines is where I'm screaming  
Take me back I know just how to stay

And everyday we make the same mistakes  
You'd say we're going up in flames

We don't care  
Don't try to tell us when the timing's right  
We've got our guns and we know how to use them  
We don't care  
Listen up you might just find tonight  
We've got a voice and we're not gonna lose it

A life less lived is dreams fulfilled by nine to five  
Well it's a long road home when your path is lost inside  
And everyday we forget yesterday  
You'd say we're going up in flames

Chorus (2 times)
