Who do you touch,
Who do you touch when you dream of me
Or do you think of me at all
What do you see,
What do you see when the lights go out
Or do you just stare at the dark
I'm running away
Cause here can no longer stay
You've already taken too much from me
chorus

Release me from memory
And tell me the road gets easier from here
I'll be by my side and do it the hard way
Well i'm standing
Withstanding
And hoping my thoughts don't overwhelm me
But take
Take it instead, the shell from my head

And wash those stupid waves goodbye
What do you do
What do you do now you don't have me
Do late night promises surffice
What would it be like
What would it be like if you never had to think of me at
all
So take my advice
But make it a surprise
Cause youve already taken so much from me
chorus
Wash those stupid waves goodbye (repeat 4X)
So take my advice
And make it a surprise
Cause youve already taken so much from me
**chorus **
Wash those stupid waves goodbye 2X
