[words & music: MÃ¥rdstam]

When you turn your back you havnÃ´t got a chance
When you turn your back there is no romance
Nothing you can do - right between the eyes
Nothing you can do - everything is lies

HavnÃ´t got the time to waste in the lie
You will die in pain in NovemberÃ´s rain
Liars betray

Master, master, master of disaster
The road is calling canÃ´t you hear
Faster, faster, faster to disaster
IÃ´m shifting to a higher gear

What is nothing else the night when IÃ´m you
What is nothing else when every lie is true
Nothing you can say - prepare to die now
Nothing you can say - telling you goodbye

HavnÃ´t got the time to waste in the lie
You will die in pain in NovemberÃ´s rain
Liars betray

Master, master, master of disaster
The road is calling canÃ´t you hear
Faster, faster, faster to disaster
IÃ´m shifting to a higher gear

So I donÃ´t trust in no one but myself
