[words: Barthold, music: MÃ¥rdstam, Barthold, Selin]

Seeding silence from words unspoken As you slowly fade Symbols of lust, never be broken But in the dawn you´ll wither away

Open up again as your body ascends

Wandering through forests of ebony In your floral splendour cell When the night comes over again I´II be back with you in hell

Open up again as your body ascends

To roam within all darkness And flee from every light Solitude is dying As you flourish at night
