

Left Hand Solution "Vision"

Visit "[Vision](#)" on MotoLyrics.com

[Words: Barthold, music: Wiklund]

Let me take you away, let me show you the way
To where you've never been, to a world between
Dance the light away in this passionate play
Through the forests so green of the green theory

Places I've seen, places I've been to
Places I've seen in my dreams

Our travel through times, the things that remind
How our past will be, what our future has seen

Places I've seen, places I've been to
Places I've seen in my dreams We fall with the rain
