"i was there"

Visit "[i was there](#)" on MotoLyrics.com

through all the good times and the bad.... i was there
i was there to let u know..
to make it through.. for the good of me and you
i was there to let u know that u have to stand up and
fight,,,,
i was there to tell u when to start....
oh yeah i could have left in a flash,,,,,but i chose to
stay...and be there with you
Chorus: when i was around...it was to let u know... the
things i do...to make u see...where your love should
be... and babie i was there.... i was there.....
babie stand up and fight..... u cant just take it like that....
be a man... and do what u have to do.....ill be there
when u need me the most.....ill never have that foolish
pride...cuz babie ill be there....ill be there.....
(repeat chorus x3)
