"The Drug Song"

Visit "[The Drug Song](#)" on MotoLyrics.com

I wake up and every single day
People make me sick and get in my way(???)
So you take a load off and you smoke a little pot,
I drink more 'tussin and drink alcohol a lot

The drug song, the drug song!
So all you little followers jump up and sing along!
Sing along, sing along.
So toke and raise your bottles to the fuckin' drug song

Smoking dust is happiness, to you it might seem crazy,
I am waking from the coma and my everything is hazy
You're smokin' crack and shootin' dope; It used to be
so fun,
But now I want to rule the world and torture everyone!

The drug song, the drug song
If your workin' for the white man then jump up and sing
along
sing along, sing along
So toke and raise your bottles to the fuckin' drug song
