I ride my bicycle down the street
With car exhaust blowing in my face
My lungs inhale this toxic shit
And I can see the human race
Capsized and drowning, here we are
The bills, the rent, the kids, the car
We pay this price for human greed
In ignorance our insides bleed

Life causes cancer, woah-oh way-oh
There is no answer, woah-oh way-oh
Life causes cancer, woah-oh way-oh
There is no answer, woah-oh way-oh

[Ezra]
Every time I take a drag
I see my breath so sad
Pollutions compound exponentially
It's all around
Every time i see my friends
It's tra-la-la-la-la
Buy a bottle of oxygen for two bucks
And it's us against the wall

Life causes cancer, woah-oh way-oh
There is no answer, woah-oh way-oh
Life causes cancer, woah-oh way-oh
There is no answer, woah-oh way-oh

Life causes cancer, woah-oh way-oh
There is no answer, woah-oh way-oh
Life causes cancer, woah-oh way-oh
There is no answer, woah-oh way-oh
