It ain't a mystery, that US History
Was built upon the graves
Of native ways and beaten slaves
Yeah, we're all free and brave
Until we misbehave
And there's just no escape
From the crushing weight
Of the police state

[Chorus:]

Two towers falling down
I'll be at zero ground
We're flying friendly skies
Until the city dies
And you don't want to see
Through human history,
Empires will always fall
This is the final call

[Spoken:]

The world bank and the IMF have created a system of
modern-day colonialism
To make the people in the developing world poorer,
And the multinational corporations richer,
And take the power away from all of us
It's time to take back control of our lives
And tear apart these monuments to greed
And build our new world from the broken pieces

I pledge allegiance to no flag
Top the bottle with an oily rag
We're building up an army fast
To destroy the pigs and break the upper class
I'm only one
This is my voice
But you're gonna have to make a choice
I don't care if you disagree
'cause this fuckin' thing
It means the whole world to me!

We won't be hypnotized, by all the media lies
It's time the truth is told

When you're sick to death of being bought and sold
Our freedom's been misplaced
Fuck that, it's been erased,
The world's our shooting range,
I'm gonna spare some change
To bomb the stock exchange

[Spoken:]

These skewed development policies kill people every
day
And keep us so hypnotized that even though it's right in
front of our eyes, we don't see it...
World trade is a death machine.

[Chorus 2x]
