It's such a put on the way you try and hold me back
And it's a let down how you fell apart so fast
So you hold on, think you're gonna finally get your way
And then you shut down, shut it down again

And I won't breath
Until you cave into to me
I won't leave this place now

Plant my feet on your ground
Wipe your mind, I'll wash my hands
Memories of enemies are all you have

I won't breath until you cave into to me
I won't leave this place now
Plant my feet until you cave into me
Nothing left until you come back down, come back
When you come back
When you come back down

I won't breath until you cave into to me
I won't leave this place now
Nothing left until you come back

Until you come back
Until you come back down
Come back down
Come back down
Come back down
