Signed sealed and delivered a pack that's containing
my heart
To open remove the wrapper but please don't tear it
apart
You tore up this heart when you left me you left me
alone and so blue
I'm sending this special delivery please handle with
care it's for you
[guitar]
It's all that I have to offer but darling you know that it's
true
Signed sealed and delivered the postman will bring it
to you
I thought perhaps you would keep it just for a while
don't you see
Oh darling please keep it forever without you it's no
good to me
Signed sealed and delivered a pack that's containing
my heart
I send it to you as a token I'm sorry we're so far apart
