

## Lefty "Takes So Long"

Visit "[Takes So Long](#)" on MotoLyrics.com

pushing on it never really made her any stronger  
waited so long I wondered is she ever coming down  
is she ever coming down  
is she ever gonna come back down  
took away the motivation  
feet are moving forward but she's falling fast

took me so long to figure out  
last on the vine to know about  
intuition try and tell me but I always doubt it  
now I want to try it now I won't deny it

pulling under spinning now she's spinning on the way  
down

and she wonders how it got so heavy couldn't set it  
down

took me so long to figure out  
last on the vine to know about  
intuition try and tell me but I always doubt it  
now I want to try it

holding on she's hanging on she's hanging all the way  
down  
wait so long I think she's going crazy then she finally  
comes down

took me so long
