Sister says she's hungry brother says he's hungry too
If daddy don't get a job real soon I don't know what
we're gonna do
Cause there's no food in this house there's no food in
this house
My daddy's looking mighty worried since they cut off
the pretty at the store
I used to ask mom what's for supper now I don't ask
anymore
Cause there's no food in this house there's no food in
this house
Daddy's been off from work now two months and a day
Mama she don't say nothing but last night I heard her
pray
Oh Lord please do something something mighty fast
Too many babies are hungry I don't know how long we
can last
Cause there's no food in this house there's no food in
this house
The people from the church came by last night and
brought a big basket of food
I guess mama's prayers were answered it's strange
how the Lord does move
Cause we got food in this house now we got food in this
house
Now when we say the blessings we thank him for the
food in this house
We thank him for the food in this house we thank him
for the food in this house
We thank him for the food in this house
