Visit "[Wipe It Away](#)" on MotoLyrics.com

all that I am just what you made never gonna forgive
you for that now
and all of of my mistakes yeah all that I made
guess I'm never gonna live them down
wipe them all away it's easier to face
when I don't have to watch them fail
and all that I am it's easier to face
and now I wipe them all away

it's easier to face

took just what you wanted never gonna give it back
you f#*@ed me around for the last time my friend

just because you got a pretty face don't mean
that i'll cave into you again

wipe them all away it's easier to face
when I don't have to watch it fail
know that I am it's easier to face
and now I wipe them all away
one last time it's easier to face
and now I wipe them all away

all of my gifts never gonna take back
all that i am just what you made
never gonna forgive you for that now
