Sister says she's hungry brother says he's hungry too  
If daddy don't get a job real soon I don't know what  
we're gonna do  
Cause there's no food in this house there's no food in  
this house  
My daddy's looking mighty worried since they cut off  
the credit at the store  
I used to ask mom what's for supper now I don't ask  
anymore  
Cause there's no food in this house there's no food in  
this house  
Daddy's been off from work now two months and a day  
Mama she don't say nothing but last night I heard her  
pray  
Oh Lord please do something something mighty fast  
Me and these babies are hungry I don't know how long  
we can last

Cause there's no food in this house there's no food in  
this house  
The people from the church came by last night and  
brought a big basket of food  
I guess mama's prayers were answered it's strange  
how the Lord does move  
Cause we got food in this house now we got food in this  
house  
Now when we say the blessings we thank him for the  
food in this house  
We thank him for the food in this house we thank him  
for the food in this house  
We thank him for the food in this house
