Fuckin' like bunnies; Breedin' like rats  
Were shittin' out the babies & Im tellin' you that thats  
Mad against the better judgment in our human history  
Take some time to think it over; It's not difficult to see  
You can wait until you're older; Or you're in a better  
place  
Just remember there's no way to win this fucked-up  
human race  
I know you might be searchin' for some meaning on  
this earth  
(But) Youll be stabbin' nature in the back by givin' into  
birth  
Youre too ugly & Im too fat  
What kind of seed are we to spawn with genetic cards  
like that?  
Plus addiction and depression is just swimmin' in my  
cum  
And we are weak & dumb  
Fuckin' like bunnies; Breedin' like rats  
Were shittin' out the babies & Im tellin' you that thats  
Mad against the better judgment in our human history  
Take some time to think it over; It's not difficult to see  
We're mostly runts & too high strung  
In nature, mother eats the young  
Who are we to breed?; Put away your seed  
We can't evolve an iron-lung  
And youre too ugly & Im too phat  
What kind of seed are we to spawn with genetic cards  
like that?  
Plus addiction and depression is just swimmin' in my  
cum  
And we are weak & dumb  
Too many people on the way  
Worlds growing smaller every day  
As quantity grows, life quality goes  
Our lives are sick & in decay
