(Lefty Frizzell)

Darkness fell, my day was night  
But heart you did it, you did what's right  
Because if she really cared for me  
Wish she would be with us tonight.

Thanks to you old heart of mine  
You told her up of her cheatin' times  
You cried out loud you're untrue  
Oh, lonely heart I cry with you.

--- Instrumental ---

Lonely heart I know we lose  
Lonely heart you're broken too  
The way she acts to you  
And I will I look off so you can cry...
