This generation's fucking trash and that's something else.
You are hated believe me when I say that you are nothing more
You are nothing more than just a walking sore.
With a sickness that can't be cured.
You have a sickness that can't be cured.
Why don't you have some respect for yourself.
Everyday you wake feeling sorry. so sorry for yourself.
You, you've
Created every problem in your life.
You'll never take the time to correct your mistakes.
To correct your mistakes.
