(Lloyd Copas - Lois Mann)

Signed sealed and delivered
pack that's containing my heart
To open remove the wrapper
But please don't tear it apart.

You tore up this heart when you left me
You left me alone and so blue
I'm sending this special delivery
Please handle with care it's for you.

--- Instrumental ---

It's all that I have to offer
But darling you know that it's true
Signed sealed and delivered
The postman will bring it to you.

I thought perhaps you would keep it
Just for a while don't you see
Oh darling, please keep it forever
Without you it's no good to me.

Signed sealed and delievered
A pack that's containing my heart
I send it to you as a token
I'm sorry we're so far apart...
