(Merle Kilgore)

Sister says she's hungry, brother says he's hungry too
If daddy don't get a job real soon I don't know what
we're gonna do

'Cause there's no food in this house there's no food in
this house

My daddy's looking mighty worried since they cut off
the pretty at the store.

I used to ask mom what's for supper now I don't ask
anymore

'Cause there's no food in this house, there's no food in
this house

Daddy's been off from work now, two months and a
day

Mama she don't say nothing but last night I heard her
pray.

Oh Lord, please do something, something mighty fast
Too many babies are hungry, I don't know how long we
can last

'Cause there's no food in this house, there's no food in
this house

The people from the church came by last night and
brought

A big basket of food.

I guess mama's prayers were answered, it's strange
how the Lord does move

'Cause we got food in this house, now we got food in
this house

Now when we say the blessings we thank him for the
food in this house

We thank him for the food in this house, we thank him
for the food in this house.

We thank him for the food in this house...
