(Bobby Bare - Charlie Williams)

(I'll keep looking through the eyes of a fool.)

If I see someone hold her tight that's all right they're  
just dancing  
If they're together in the moonlight they're just talking  
not romancing  
If I see her out with someone it's just some old friend  
from school  
That's how it looks through the eyes of a fool.

If her phone rings and she whispers I can talk now I  
don't care  
A private matter and she'd better not discuss it with me  
there  
If I see her smile at someone that's not breaking any  
rule  
That's how it looks through the eyes of a fool.

They say that seeing is believeing believe me it's not  
true  
You can teach your eyes to only see the things you're  
wantin' to  
So I'd rather keep pretending like a little child in school  
And now keep looking through the eyes of a fool.

(I'll keep looking through the eyes of a fool...)
