(Harlan Howard)

Woman let me sing you a song
Woman let me sing you a song
That tells how you've done me wrong
So it's your fault if it's long
Woman let me sing you a song.

The neighbors say I run around
The neighbors say I run around
But baby if I do I'm miles back of you
Woman let me sing you a song.

My bank account is almost gone
My bank account is almost gone
You're wearing furs and rings
While I wear old blue jeans
Woman let me sing you a song.

--- Instrumental ---

You tell your friends I drink too much
Now the whole town knows I drink too much
But the reason why I drink
Is the thought you make me think
Woman let me sing you a song.

I'm leaving and you think I'll be back
I'm leaving but you think I'll be back
Here's my advice to you
Don't stop breathing till I do
Woman let me sing you a song.

Woman I done sang you my song
Woman I done sang you my song...
