I will not desert you
I just stepped back a little...
Kept a low profile
Smiled as you made those little songs for me,
Build those temples
I'm flattered really!
And I know some of you curse me, some fear me,
Some think I died and some think i've never existed in
the first place!
Feel easy!
I'm reasonable!
I won't interfere!
No matter what you do!
I'd never interfere...
Never interfere...

SO SING! SING WHILE YOU MAY!
(It may not be very long...)
