

Legenda "Bloodred Sunset"

Bloodred sunset was the night
We met at the ocean's shore
Bloodred stiletto was the one
I stabbed into her heart and what for, huh?
Bloodred sunset was the night
I killed that motherfucking whore
Bloodred jacket as her blood flew
And I wanted more and more
Bloodred sunset was the night
I raped that ugly fat whore
Bloodred precept is the way I go
And want it more and more and more
Bloodred sunset was the night
I blew up my brain
Bloodred sunset was the night
My life went down into a drain
