Hey she's rising from her cold grave  
Bitch vampire dancing at it's gaze  
By the moonlight gave farewell  
By the moonlight, by the cold night  
Hey, bloodthirsty red stary eyes  
She's gazing at my side for my bloodwine  
By the moonlight gave farewell  
By the moonlight, by the cold night  
Hey, sister of darkness is unleashed  
Risen from her lair for a bloodgiven feast  
In it's glory when she is fed  
Gives farwell to my milk white neck  
By the moonlight gave farewell  
By the moonlight, by the cold night  
Hey, sister of darkness is unleashed  
Back to her lair for a bloodgiven dreams
