

Legenda Aurea "Vengeance"

Visit "[Vengeance](#)" on MotoLyrics.com

I can't forget
I can't forgive
The wounds on my body
Will always bleed

Burn the witch, they say
Burn everything that's strange
It's so easy to affect humans
If they only would know
What they did to me
My endless sorrow will always be

Now they must pay for
What they've done to me
A young innocent girl
Raped in slavery

Burn the witch, they say
Burn everything that's strange
It's so easy to affect humans
If they only would know
What they did to me
My endless sorrow will always be

Now it's my turn, my revenge
Justice is on my side now
I am the executioner
I am what they've made to me

Burn the witch, they say
Burn everything that's strange
It's so easy to affect humans
If they only would know
What they did to me
My endless sorrow will always be
