"Check it out" [Q-Tip] \*cut and scratched\* 4x

[Iriscience]

One two yo yo yo

Yo hit the switch in December

I'll be on till November

Bombin, disturbin the calm at civic centers

Make a smoothie outta rapper and his ice in my blender

Beyond the Fender Bender, Dilated-Swollen Members

Independent money makin, no time for waitin

Rakka stimulatn, designed for penetratin

Nuttin to prove, air sea and land mover

Crescent Heights, Cali up north to Vancouver

[Prevail]

Molecular monitors censors an

Anaconda that harbors

A feeling for heat and armor and eating a snake charm

Capital break, wrap it in tape the cidic images

Stand up and when I twist the lid off of a silver cylinder

Crash the vehicular, makes a riveting statement

Prior engagement escape this electric encagement

Select the vegenance surraying for the four-blade

tango

Enough voltage in my panel to constantly change the

channel

Chorus A [Iriscience]

Yo I came here to change the whole sound of art

And let em know it all comes down to art

The mission now is rip the whole town apart

Wit my colleagues, my teammates, my counter parts

Chorus B [Iriscience]

Yo I came here to change the whole sound of art

And let em know a new cycle is bound to start

The mission now is rip the whole town apart

Wit my colleagues, my teammates, my counter parts

[Evidence]

Yo, some pay no mind

Man, I put time in so play this  
You live on the edge, I live on the San Andreas  
In range of, clear and present danger  
Can't even trust my shadow, every day it's lookin  
stranger  
In ten years, you'll find me on the low  
Full-bearded, Serpico wit flows yo  
Coolin in the cut crevice, underground tavern  
Wit wifey and seed, still on point like a javelin

[Madchild]

Madchild twists and turns like an Indian burn  
Wit powerful jaws and character flaws  
Rippin and tearin wit claws  
Kill if I'm aware of the cause  
Not to mention, knuckles white from inner tension  
Witch doctors and war chiefs approaching  
Fantastic adventures, a frightening fortune  
Scorpion tail snaps, constrictor strangles  
S+M Rocks, Dilated Works the Angles

Chorus A

[Prevail]

Galvanize steel grate, ?I tear a? quite well made  
I trust you're rush into an open blade of rust  
Hands to ribbons, is in a beatbox of must  
Crimson wordplay Prevail, the narrator from the  
doorway  
My partners in this, have gotta be clearly obvious  
Known for superior form of smoke inhalation  
>From spoken inceneration  
Omens of Damien reignin in present New Haven  
Now ain't that amazing?

[Evidence]

Yo I'm inspired and wired  
That time will be attractive  
Not tired I've fired volcanoes still in ac-tive  
(The unibomber!)  
Causin drama or terror, it's fabulous  
I'll bounce to the arting wit a backpack full of travelers  
Checks to burn, stay warm for the brain storm  
Cuz in my snow storm  
I freeze if I don't sleep below the ice for my blanket  
Thank earth for it's hidden treasures  
And now I'm takin drastic measures

Chorus B

[Madchild]

Indulge in this intrusion  
Underworld defender  
Horrendous snowball of absolute insaness (feel me)  
Riskin freedom to be famous  
When nothin remains except passion and pain  
No slashin the vein, to bleed and drown in a bath  
Fall down and I laugh, get up wipe myself off and walk  
down a new path  
I'm INTACT! You can't handle the impact  
Insync, blazing wit killer instinct

[Iriscience]

\*imitating LL Cool J\*

I excel, they all fell

New details, Madchild Prevail

I remove the veil, manifest God self

As the life-giving son, Iriscience brings twelve

Like Buckingham Palace to British Columbia

Three states under ya, I deal wit District of Columbia

Understand the numbers and the system that you're  
under

And why them belly full but we keep em feelin hunger

"Check it out"

"Get live, catchin wreck is our thing" [Jeru]

"Check it out"

"Get live, catchin wreck is our thing"

"Check it out"
