Dive like a swan in a pond, as the train rolls in. Close  
your eyes,  
hold your breath - , you'll be holding it forever. There  
are methods, many  
methods - take a pill. Swallow one by one. It's easy, it's  
so easy - you  
can drift away to heaven. Many methods, there are  
methods - like a blade  
on the wrist you can carve your initials. It's messy, but  
it's effective -  
and a method. Another method ... select and slip away.  
Tightropes, and  
nightshades and shady streets where knives are  
swinging (methods!) swing,  
swing away on a rope - it's a method. another  
method....Airports,  
motorways - take a dive, take a dive...Methods.  
Methods. .Just select and  
slip away (x3) Methods. Just select and slip  
away...Methods.

Methods.... Just select and slip away. Take alive, take a  
life, take a  
dive....
