This is the age of chaos  
This is the age of war  
This is the age when empires fall

This is the age of terror  
This is the age of retribution  
This is the age of mass executions

This is the age of chaos  
This is the age of war  
This is the age when empires fall

This is the age of death  
This is the age of fear  
As images of fire and brimstone near

This is the age of chaos  
This is the age of war  
This is the age when empires fall

This is the age of iron  
This is the age of fire  
This is the age of vengeful desire

This is the age of chaos  
This is the age of war  
This is the age when empires fall
