I'm missing your bed, I never sleep
Avoiding the spots where we'd have to speak
And this bottle of beast is taking me home

I'm cuddling close to blankets and sheets
But you're not alone and you're not discreet
You make sure I know, who's taking you home

I'm reading your note over again
There is not a word that I comprehend,
Except when you signed it
"I will love you always and forever"

I'm missing your laugh, how did it break?
And when did your eyes begin to look fake?
I hope you're as happy as your pretending

I'm cuddling close to blankets and sheets,
And I am alone, in my defeat
I wish I knew you were safely at home

I'm missing your bed, I never sleep
Avoiding the spots where we'd have to speak,
And this bottle of beast is taking me home

We saw the western coast
I saw the hospital
Nursed the shoreline like a wound
Reports of lover's tryst
Were neither clear nor descript
We kept it safe and slow
The quiet things that no one ever knows

So keep the blood in your head
And keep your feet on the ground
If today's the day it gets tired
Today's the day we drop out
Gave up my body and bed
All for an empty hotel
Wasting words on lower cases and capitals

As for now I'm gonna hear the saddest songs,

And sit alone and wonder,

How you're making out,
But as for me I wish that I was anywhere
With anyone making out

I'm missing your laugh, how did it break?
And when did your eyes begin to look fake?
I hope you're as happy as your pretending

I'm missing your bed, I never sleep
Avoiding the spots where we'd have to speak
And this bottle of beast is taking me home

So keep the blood in your head
And keep your feet on the ground
If today's the day it gets tired
Today's the day we drop out
Gave up my body and bed
All for an empty hotel
Wasting words on lower cases and capitals

So keep the blood in your head (Your hair, it's everywhere)
And keep your feet on the ground
If today's the day it gets tired
Today's the day we drop out
Gave up my body and bed
All for an empty hotel (Screaming infidelities and taking it's wear)
Wasting words on lower cases and capitals

So keep the blood in your head (Your hair, it's everywhere)
And keep your feet on the ground
If today's the day it gets tired
Today's the day we drop out
Gave up my body and bed
All for an empty hotel (Screaming infidelities and taking it's wear)
Wasting words on lower cases and capitals

Your hair, it's everywhere,
Screaming infidelities and taking it's wear
