Killing for recreation  
Having fun destroying a nation  
Bloodbath, battlefield, dismemberment  
Taking someone's life,  
Without consequences for a punishment

Imagine in a world, shooting targets everywhere  
Out on the streets with a weapon in your hand  
Making wounds, and kill for fun, seeking out the weak  
Everything is driving me nuts, filled with lust, and  
greed!

Killing for recreation - having fun destroying a nation  
Killing for recreation - seeing it as an obligation  
Killing for recreation - fulfill your needs and  
satisfaction  
Killing for recreation - manslaughter on the population

Try to understand my feelings, when I release my  
needs  
Just close your eyes if you cannot stand the way I kill  
with greed  
Don't stand in my way, if I am busy finishing my score  
Just dare me! Through you, I only like to kill more!

Killing for recreation - having fun destroying a nation  
Killing for recreation - seeing it as an obligation  
Killing for recreation - fulfill your needs and  
satisfaction  
Killing for recreation - manslaughter on the population

Killing for recreation - grab your weapon and play the  
reaper  
Killing for recreation - entering a chaos of a civilisation

Killing for recreation - prepare yourself for the  
alteration  
Killing for recreation - participate and march unto  
death!
